

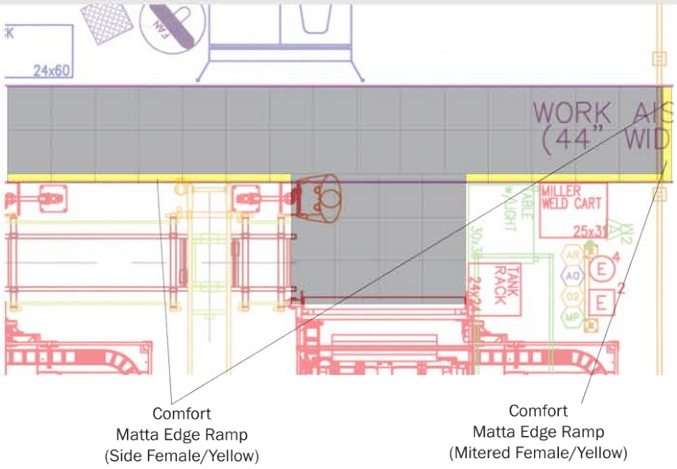
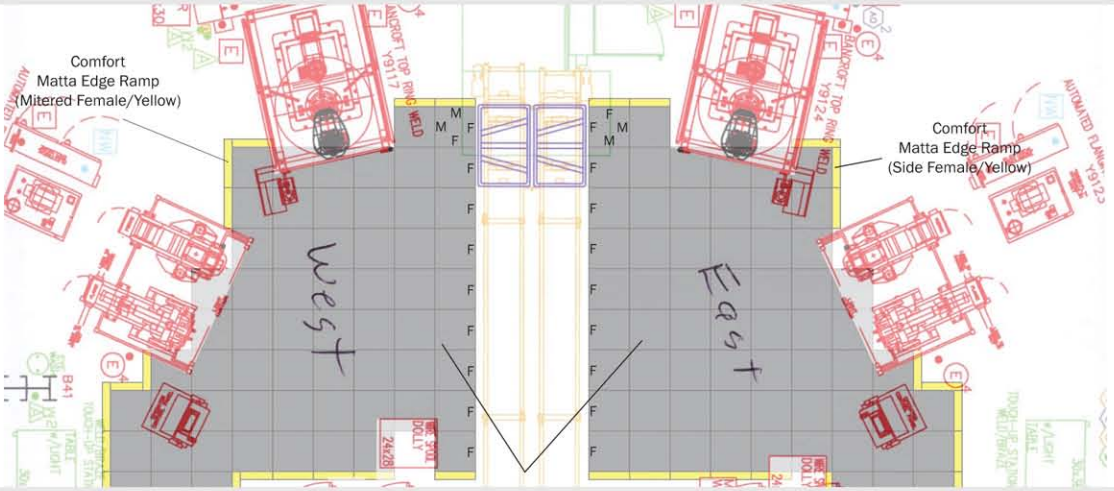
Freestanding
Edge ramps located on all (4) sides.

Workstation
Edge ramps placed on (3) sides allows the mat to rest flush next to a work table or piece of equipment.

Wash Station
Grit Matta Open Tiles allow for drainage and easy clean up while providing a safe, anti-slip environment.

Large Area Mats
Work Mattas can be used to cover entire floor surfaces. They can be easily cut to match exact perimeter. Edge ramps can be used in walkways.





Combination Workstation/Aisle Way
Work Mattas can be used together to serve multiple purposes as a cohesive surface. This layout combines Comfort Matta in the aisle and Comfort Matta Open in the welding stations.

Combination Machining Area/Conveyor Line
Work Mattas can be designed around machines. In this application, Comfort Mattas were cut to fit the exact contour of the machines. An opening was left in the center for a conveyor. Edge ramps used where needed.
